FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.403, titled *Hospital Facility Fee Guideline – Outpatient*, sets out the reimbursement guidelines for facility services provided in an outpatient acute care hospital.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:
 - 97 – The benefit for this service is included in the payment/allowance for another service/procedure that has already been adjudicated.
 - W1 – Workers Compensation State Fee Schedule Adjustment.

Issues

1. What is the applicable rule for determining reimbursement for the disputed services?
2. What is the recommended payment amount for the services in dispute?
3. Is the requestor entitled to reimbursement?

Findings

1. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was not requested.
2. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published quarterly in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
 - Procedure code 88302 has a status indicator of X, which denotes ancillary services paid under OPPS with separate APC payment. These services are classified under APC 0433, which, per OPPS Addendum A, has a payment rate of \$17.07. This amount multiplied by 60% yields an unadjusted labor-related amount of \$10.24. This amount multiplied by the annual wage index for this facility of 0.9561 yields an adjusted labor-related amount of \$9.79. The non-labor related portion is 40% of the APC rate or \$6.83. The sum of the labor and non-labor related amounts is \$16.62. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$16.62. This amount multiplied by 200% yields a MAR of \$33.24.
 - Procedure code 49505 has a status indicator of T, which denotes a significant procedure subject to multiple-procedure discounting. The highest paying status T procedure is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. These services are classified under APC 0154, which, per OPPS Addendum A, has a payment rate of \$2,278.36. This amount multiplied by 60% yields an unadjusted labor-related amount of \$1,367.02. This amount multiplied by the annual wage index for this facility of 0.9561 yields an adjusted labor-related amount of \$1,307.01. The non-labor related portion is 40% of the APC rate or \$911.34. The sum of the labor and non-labor related amounts is \$2,218.35. The cost of these services does not exceed the annual fixed-dollar threshold of \$2,025. The outlier payment amount is \$0. The total Medicare facility specific reimbursement amount for this line is \$2,218.35. This amount multiplied by 200% yields a MAR of \$4,436.70.
 - Procedure code J0690 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1100 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J1885 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2250 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J2405 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
 - Procedure code J3010 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into the reimbursement for other services, including outliers.
3. The total allowable reimbursement for the services in dispute is \$4,469.94. The amount previously paid by the insurance carrier is \$2,140.28. The requestor is seeking additional reimbursement in the amount of \$1,085.71. This amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has / has not established that additional reimbursement is due. As a result, the amount ordered is \$1,085.71.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$1,085.71, plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this order.
